

Dear Friend! We are glad to meet you. We propose you to do this trial task because only this way we can create objective evaluation and summary of your skills and give you some advice! We hope that you get enjoyment from the doing this task.

Test task for Markup / Drupal Frontend developer

1. Download PSD - <http://take.ms/77XFx>
2. Implement HTML5 markup for the provided page. You can skip Thank you layer if you want.
3. Requirements for the markup:
 - valid HTML5 and CSS3,
 - cross-browser,
 - responsive,
 - semantic HTML5 elements,
 - HTML5 form types,
 - use Bootstrap 4 and Gulp,
 - image slider inside “Works in any browser” section (inside browser window),
 - Google Page Speed optimized,
 - social networks and mobile devices ready (og-elements, apple icons, etc)
 - Drupal 8 ready markup - using default structure and class names (optionally).
4. The result should be shown as Bitbucket public repository with your natural commits in English. Make the result be available as [static Bitbucket website](#) so you can also test it on Google Page Speed.

Thank you and looking forward to hearing from you.
